

**Call for Papers**  
**Special Issue for**  
**Thermodynamic Engineering and Fluid Dynamics**

*Guest Editor: Dr. Zied Driss*

**Aims & Scope:**

Authors are invited to openly submit papers for the Special Issue on:  
“Thermodynamic Engineering and Fluid Dynamics”.

The aim of the special issue is to provide a forum for publication of original peer-reviewed regular research articles, reviews and letters on new research results on thermodynamics, compressible flow, computational fluid dynamics, environmental fluid dynamics, fluid mechanics, fluid-structure interaction, hydrodynamic, jet and wake flow, multi-phase flow, multiphase fluid dynamics, naval hydrodynamics, non-newtonian flow, reacting flow, rotating flow and mass transfer...

It is expected that the special issue will show the recent advances and the future research directions of thermodynamic engineering and Fluid Dynamics and provide the reader with valuable information.

**Keywords:**

Fluid dynamics, hydrodynamic, multi-phase flow, thermodynamics.

**Submission Deadline for Authors: March 31, 2015.**
