

BENTHAM OPEN

The Open COVID Journal

The Open COVID Journal is an Open Access online journal, which publishes original research articles, letters, reviews/mini-reviews, case studies, clinical trial and guest edited thematic issues on all aspects of coronaviruses such as their origins, types, their biology, transmission, pathogenesis, demographic, clinical and genomic characteristics. It will also cover the associated challenges for their treatment, control strategies and prevention of Coronavirus Disease 2019 (COVID-19).

The Open COVID Journal, a peer-reviewed journal, is an important and reliable source of current information on developments in the field. The emphasis will be on publishing quality papers rapidly and freely available to researchers worldwide.
