### ITEMS OF THE SCALE EVALUATING THE PERCEPTION OF THE FIRST CONSULTATION WITH AN HIV SPECIALIST PHYSICIAN (PFC-H)

Patients were invited to give the following answers: No, Mostly no, Mostly yes, or Yes.

- Did the physician cut you off when you were talking?
- Did the physician carefully listen to you?
- Did the physician encourage you to express yourself?
- Did you feel like the physician performed a satisfying physical examination?
- Did you feel like the physician was committed during the whole consultation?
- Did you feel like the physician told you all the truth?
- Did the physician explain you the pros and cons of the therapy?
- Did the physician speak in an understandable way?
- Did you feel like you were given all the information you needed?
- Did you feel like the physician understood you?
- Were the physician's attitude and speech reassuring?
- Was the physician respectful?
- Did you trust this physician?
- Globally speaking, do you trust medicine and the healthcare system?
- Did the physician involved you in the decision process?
- Did the physician check that you had understood what he was explaining to you?
