The Open Biomarkers Journal is an Open Access online journal, which publishes research articles, reviews, letters and guest edited single topic issues on biomarkers in clinical, medical and pharmaceutical research. The coverage includes biomarkers of disease, new biomarkers, exposure to drugs, genetic effects and applications of biomarkers.

The Open Biomarkers Journal, a peer reviewed journal, is an important and reliable source of current information on the developments in the field. The emphasis will be on publishing quality articles rapidly and freely available to the researchers worldwide.
