The Open Rheumatology Journal is an Open Access online journal, which publishes research articles, reviews, letters and guest edited single topic issues in all important areas of experimental and clinical research in rheumatology, which include epidemiology, etiology, pathogenesis, clinical outcomes and treatment of inflammatory, immunologic, pediatric and adult rheumatological and musculoskeletal conditions, as well as metabolic, and degenerative soft and hard connective tissue diseases.

The Open Rheumatology Journal, a peer-reviewed journal, is an important and reliable source of current information on developments in the field. The emphasis will be on publishing quality papers rapidly and making them freely available to researchers worldwide.
